

# FONTS

## Using Fonts

Need some help working with different fonts? Follow some simple tips and tricks below

**1** If you'd like to sample a font, try typing it out in this sentence: "The quick brown fox jumped over the lazy dog". This has all the letters of the alphabet, so you can see how each character appears. Try using marks like &, ! and # too.

"The quick brown fox jumped over the lazy dog!"

Sans-Serif fonts

Helvetica  
Arial  
Gotham

Serif fonts

Palatino  
PT Sans  
Times

**2** There are 2 types of fonts: Serif and Sans Serif. Serif fonts have a tail at the ends of the letters (e.g. **Palatino** and **Times New Roman**). Sans Serif fonts, on the other hand, are clean at the ends (e.g. **Arial** and **Helvetica**). Serif fonts are easier to read when they are large, so if you need to make a font 12 pt. or smaller, it's best to use Sans Serif!

**3** Using a different language for your book? All fonts below support Spanish accents, while fonts with an asterisk (\*) support French accents. Note: **Aurulent Sans** and **Loveletters Script** do not support the cedille Ç.

<b>Abrial Fatface</b>	Blogger Sans	Colaborate	<b>Glypha Bold</b>	<i>Marketing Script</i>	<b>Stencilla-A</b>
